A solar vintage, but the wine exceptionally different. The diversity of the plots, and hence the situations in our vineyard, reveals a wonderful palette of nuances. Proof of the brilliance and wonder that is possible from "less". Focus on the essentials. Every day we are reminded of this quest. Grapes that reveal the deep nature of the place, that carry the life force, the freshness despite the summer heat. The vine shows us how it has reacted to the harshness of the climate with admirable softness.
